

# André Michelle

SENIOR FRONTEND DEVELOPER

## Profile

Hello, I'm actively seeking new career opportunities where I can leverage my 15 years of hands-on experience as the originator and lead developer at [audiotool.com](https://audiotool.com), a venture where I played a pivotal role in shaping the overall concept and driving its development. In addition to this, I bring over 25 years of experience as a programmer and digital artist to the table.

Besides my tech know-how on web technologies and essential digital signal processing, I've navigated the complexities of large application infrastructures. While I can still code cleanly and rigorously test in various web languages, what truly sets me apart is my ability to transform ideas into code and user-friendly experiences (UX).

I also consider myself a supportive team leader, giving everybody the mindfulness and attention to deliver better output.

## Education

### High School, Landesschule Zur Pforte, Meinerzhagen

MARCH 1993

## Employment History

### Music Producer & DJ

MARCH 1993 – DECEMBER 2001

Throughout 1993 to 1999, I was renowned as a skillful DJ, captivating audiences with extensive, Marathon performances. While DJing was a significant part of my journey, my true passion always lay in music production, which later led to the development of Audiotool.

### Flash Coder, Powerflasher, Aachen

JANUARY 2000 – MARCH 2003

During my time at Powerflasher in Aachen, I worked on a variety of games and websites, which significantly enhanced my programming skills. This experience also introduced me to the world of teaching and mentoring, as I began conducting workshops, that also helped me to refined my ability to communicate complex technical concepts clearly.

### Freelancer, Berlin

MARCH 2003 – SEPTEMBER 2007

As a freelancer, I gained prominence in web game and audio programming, speaking at many conferences worldwide. My presentations showcased innovative ideas and advanced programming skills, establishing my reputation in the industry. This phase of my career was marked by a series of groundbreaking 3d and music projects, further solidifying my expertise and influence in web development.

### CTO, Audiotool.com, Cologne

OCTOBER 2007 – OCTOBER 2023

As the CTO at Audiotool, I spearheaded the creation of the pioneering online Digital Audio Workstation (DAW), a trailblazing project in web-based music production that has garnered over 2 million users to date.
